

## Products

### Autodiallers

2 Wire Range & Accessories  
(PAGE 2)  
AVCOM Range & Accessories  
(PAGE 88)  
AD1000 Range & Accessories  
(Page 177)  
SA1000 Range(Page 318)  
SA2000 Range (Page 319)  
BOE 1000 Range (Page 320)

### Fire Fighting & Evacuation Combined Intercom Systems

Flush Mounting Fire Fighting &  
Evacuation Systems(342)  
Surface Mounting Fire Fighting &  
Evacuation Systems(348)

### Inductive Loop Systems

Low Power Inductive Loop  
(Page 321)  
Medium Power Inductive Loop  
(page 322)  
High Power Inductive Loop (Page  
323)

### GSM Range (354)

### VoIP Range (358)

### EN 81-28 Monitoring (359)

### Speech Synthesis Unit (360)

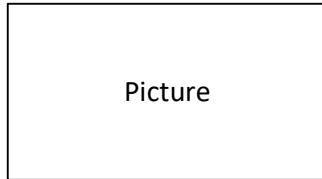

### Fire Fighting Intercom Systems

Flush Mounting Fire Fighting Systems  
(324)  
Surface Mounting Fire Fighting Systems  
(330)

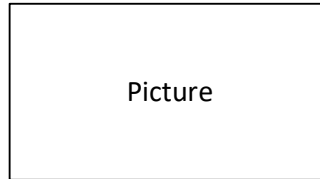

### Evacuation Intercom Systems

Flush Mounting Evacuation Systems  
(336)  
Surface Mounting Evacuation Systems  
(339)

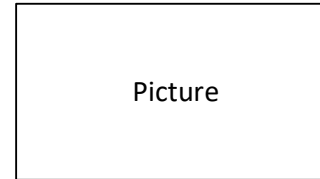

## 2 Wire Range & Accessories

Standard Range  
(Go to Page 3)

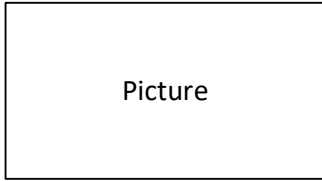

For Kone Lifts  
(Where it is not  
possible to install our  
standard speaker in  
the COP)  
(Go to Page 36)

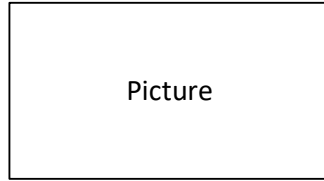

For OTIS Lifts  
(The Speaker Box comes in the  
package such that it fits into existing  
OTIS REM speaker. If the Lift has  
space to install our standard  
speaker box, select the standard  
range)  
(Go to Page 63)

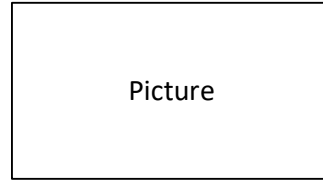

**Standard 2 Wire Range & Accessories**

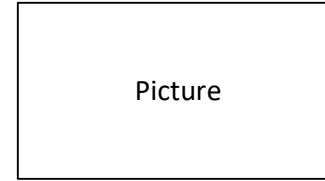

2 Wire Autodiallers Only  
(Go to Page 4)

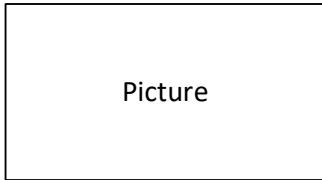

2 Wire Autodiallers with  
Fire Fighting Add-On  
(Go to Page 5)

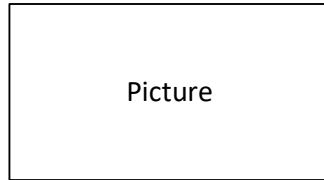

2 Wire Autodiallers with  
Evacuation Add-On  
(Go to Page 10)

2 Wire Autodiallers  
with Evacuation &  
Fire Fighting Add-On  
(Go to Page 13)

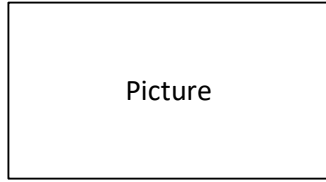

Spares/Replacements  
(Go to Page 18)

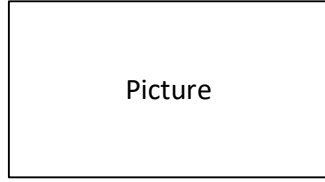

Accessories  
(Go to Page 35)

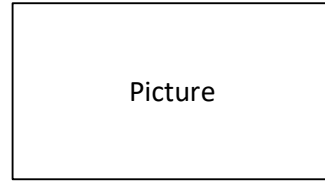

**Standard 2 Wire Autodiallers Only**

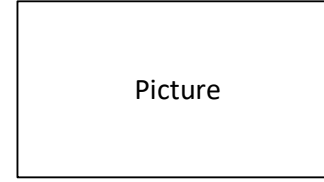

2WAD EN-4 System

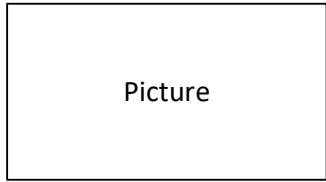

2WAD EN-4 System  
(Car Speaker without  
Faceplate)

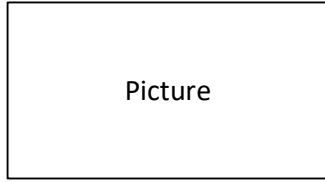

2WAD EN-4 System with  
Pictograms

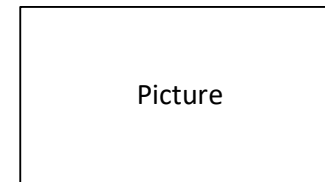

2WAD EN-4 System with  
Pictograms  
(Car Speaker without faceplate)

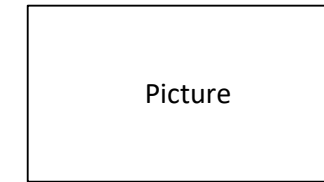

2WAD EN-4 System with  
Inductive Loop

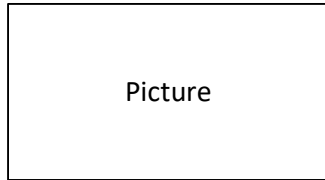

2WAD EN-4 System with Inductive  
Loop  
(Car Speaker without faceplate)

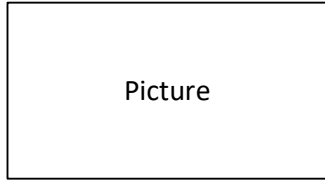

2WAD EN-4 System with  
Pictograms & Inductive  
Loop

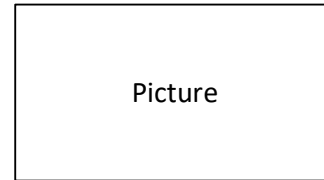

2WAD EN-4 System with  
Pictograms & Inductive Loop  
(Car Speaker without faceplate)

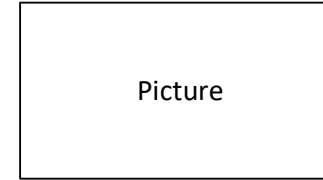

2WAD EN-3 System

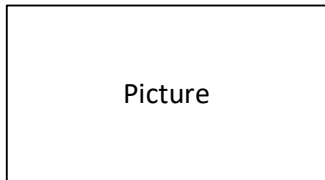

2WAD EN-3 System  
(Car Speaker without  
Faceplate)

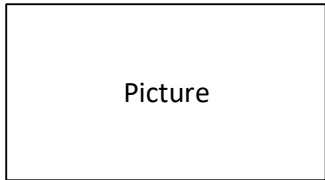

2WAD EN-3 System with  
Pictograms

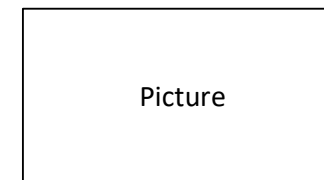

2WAD EN-3 System with  
Pictograms  
(Car Speaker without faceplate)

2WAD EN-3 System with  
Inductive Loop

2WAD EN-3 System with  
Inductive Loop  
(Car Speaker without  
faceplate)

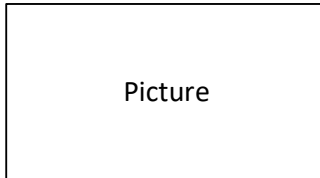

2WAD EN-3 System with  
Pictograms & Inductive  
Loop

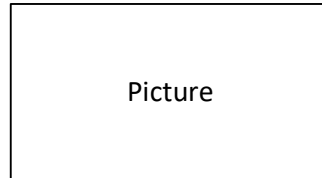

2WAD EN-3 System with  
Pictograms & Inductive Loop  
(Car Speaker without  
faceplate)

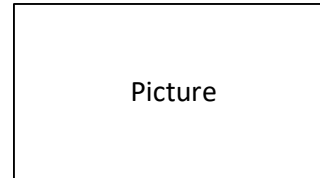

**Standard 2 Wire Autodiallers with Fire Fighting Add-on**

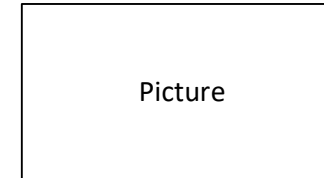

2 Wire Autodiallers  
with Flush Mounting  
Fire Fighting including  
Primary/Secondary  
Indicators  
(Go to Page 6)

2 Wire Autodiallers  
with Flush Mounting  
Fire Fighting without  
Primary/Secondary  
Indicators  
(Go to Page 7)

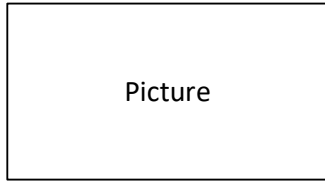

2 Wire Autodiallers with  
Surface Mounting Fire  
Fighting including  
Primary/Secondary  
Indicators  
(Go to Page 8)

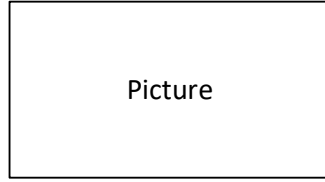

2 Wire Autodiallers  
with Surface Mounting  
Fire Fighting without  
Primary/Secondary  
Indicators  
(Go to Page 9)

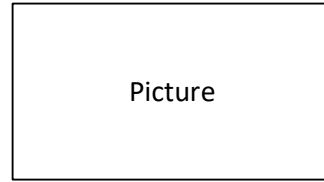

**Standard 2 Wire Autodiallers with Flush Mounting Fire Fighting including Primary/Secondary Indicators**

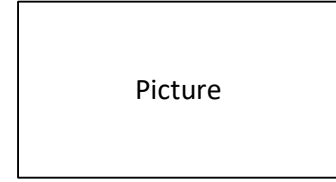

2WAD EN-4 System with Flush Mounting Fire Fighting including Primary/Secondary Indicators

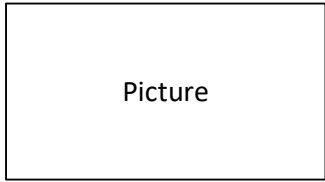

2WAD EN-4 System with Flush Mounting Fire Fighting including Primary/Secondary Indicators (Car Speaker without Faceplate)

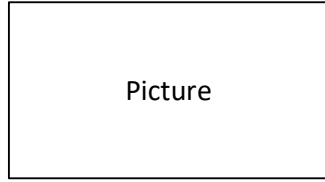

2WAD EN-4 System with Pictograms & with Flush Mounting Fire Fighting including Primary/Secondary Indicators

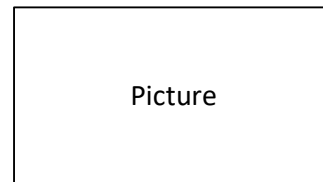

2WAD EN-4 System with Pictograms & with Flush Mounting Fire Fighting including Primary/Secondary Indicators (Car Speaker without faceplate)

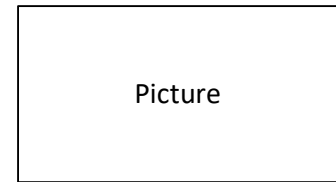

2WAD EN-4 System with Inductive Loop & with Flush Mounting Fire Fighting including Primary/Secondary Indicators

2WAD EN-4 System with Inductive Loop & with Flush Mounting Fire Fighting including Primary/Secondary Indicators (Car Speaker without faceplate)

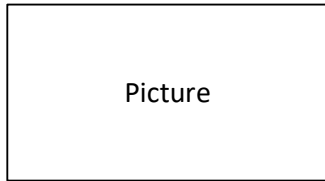

2WAD EN-4 System with Pictograms & Inductive loop plus with Flush Mounting Fire Fighting including Primary/Secondary Indicators

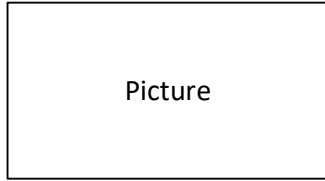

2WAD EN-4 System with Pictograms & Inductive Loop plus with Flush Mounting Fire Fighting including Primary/Secondary Indicators (Car Speaker without faceplate)

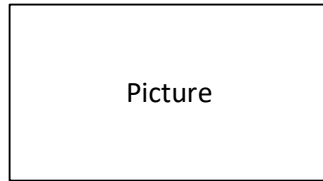

**Standard 2 Wire Autodiallers with Flush Mounting Fire Fighting without Primary/Secondary Indicators**

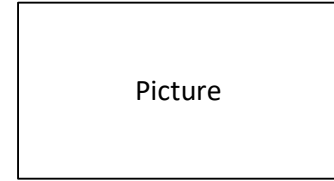

2WAD EN-4 System with Flush Mounting Fire Fighting without Primary/Secondary Indicators

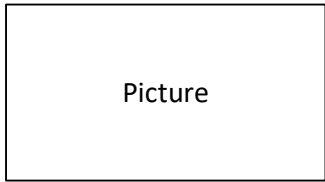

2WAD EN-4 System with Flush Mounting Fire Fighting without Primary/Secondary Indicators (Car Speaker without Faceplate)

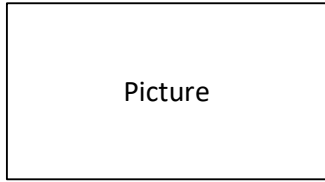

2WAD EN-4 System with Pictograms & with Flush Mounting Fire Fighting without Primary/Secondary Indicators

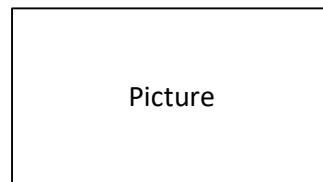

2WAD EN-4 System with Pictograms & with Flush Mounting Fire Fighting without Primary/Secondary Indicators (Car Speaker without faceplate)

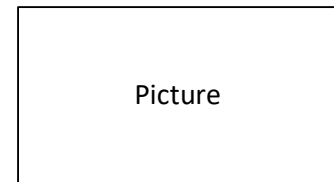

2WAD EN-4 System with Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary Indicators

2WAD EN-4 System with Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary Indicators (Car Speaker without faceplate)

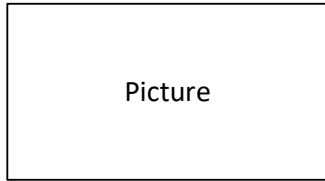

2WAD EN-4 System with Pictograms & Inductive loop plus with Flush Mounting Fire Fighting without Primary/Secondary Indicators

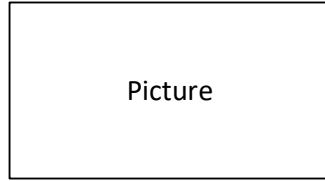

2WAD EN-4 System with Pictograms & Inductive Loop plus with Flush Mounting Fire Fighting without Primary/Secondary Indicators (Car Speaker without faceplate)

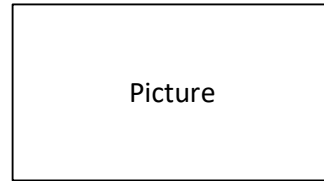

**Standard 2 Wire Autodiallers with Surface Mounting  
Fire Fighting including Primary/Secondary Indicators**

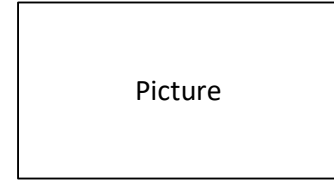

2WAD EN-4 System with Surface Mounting Fire Fighting including Primary/Secondary Indicators

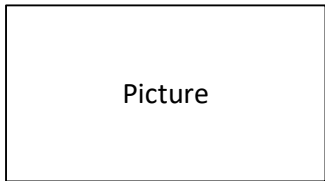

2WAD EN-4 System with Surface Mounting Fire Fighting including Primary/Secondary Indicators (Car Speaker without Faceplate)

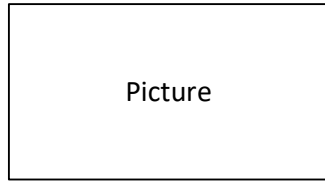

2WAD EN-4 System with Pictograms & with Surface Mounting Fire Fighting including Primary/Secondary Indicators

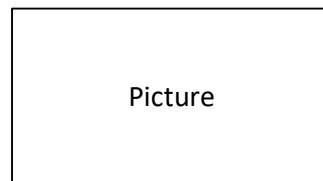

2WAD EN-4 System with Pictograms & with Surface Mounting Fire Fighting including Primary/Secondary Indicators (Car Speaker without faceplate)

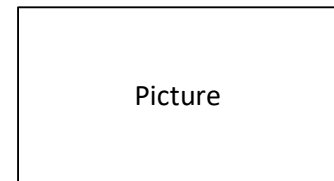

2WAD EN-4 System with Inductive Loop & with Surface Mounting Fire Fighting including Primary/Secondary Indicators

2WAD EN-4 System with Inductive Loop & with Surface Mounting Fire Fighting including Primary/Secondary Indicators (Car Speaker without faceplate)

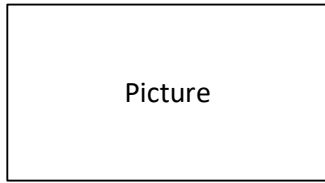

2WAD EN-4 System with Pictograms & Inductive loop plus with Surface Mounting Fire Fighting including Primary/Secondary Indicators

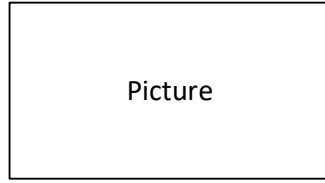

2WAD EN-4 System with Pictograms & Inductive Loop plus with Surface Mounting Fire Fighting including Primary/Secondary Indicators (Car Speaker without faceplate)

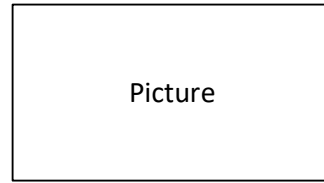

**Standard 2 Wire Autodiallers with Surface Mounting  
Fire Fighting without Primary/Secondary Indicators**

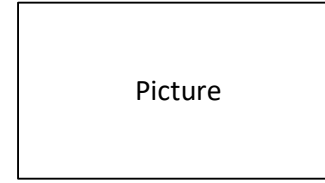

2WAD EN-4 System with Surface Mounting Fire Fighting without Primary/Secondary Indicators

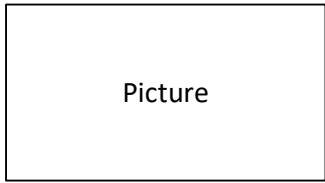

2WAD EN-4 System with Surface Mounting Fire Fighting without Primary/Secondary Indicators (Car Speaker without Faceplate)

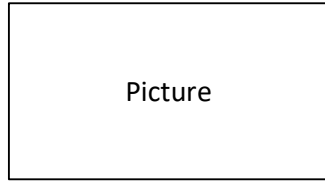

2WAD EN-4 System with Pictograms & with Surface Mounting Fire Fighting without Primary/Secondary Indicators

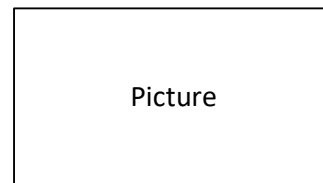

2WAD EN-4 System with Pictograms & with Surface Mounting Fire Fighting without Primary/Secondary Indicators (Car Speaker without faceplate)

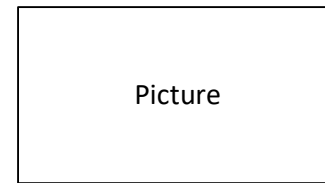

2WAD EN-4 System with Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary Indicators

2WAD EN-4 System with Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary Indicators (Car Speaker without faceplate)

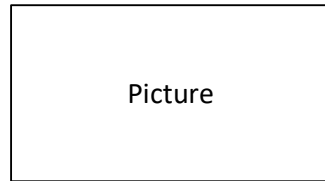

2WAD EN-4 System with Pictograms & Inductive loop plus with Surface Mounting Fire Fighting without Primary/Secondary Indicators

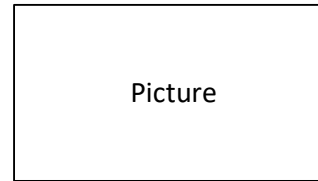

2WAD EN-4 System with Pictograms & Inductive Loop plus with Surface Mounting Fire Fighting without Primary/Secondary Indicators (Car Speaker without faceplate)

**Standard 2 Wire Autodiallers with Evacuation Add-on**

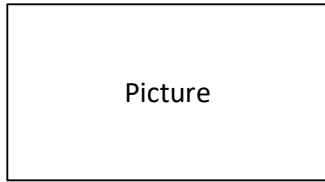

2 Wire Autodiallers  
with Flush Mounting  
Evacuation Intercom  
(Go to Page 11)

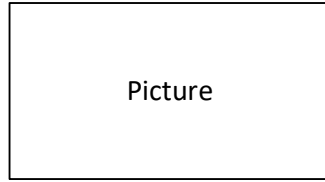

2 Wire Autodiallers  
with Surface Mounting  
Evacuation Intercom  
(Go to Page 12)

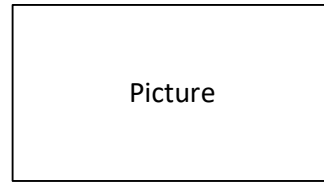

**Standard 2 Wire Autodiallers with Flush Mounting Evacuation Intercom**

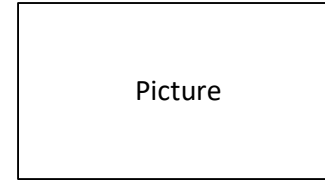

2WAD EN-4 System with Flush Mounting Evacuation Intercom

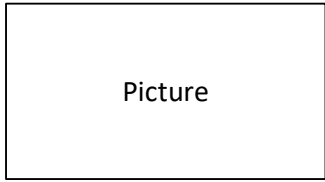

2WAD EN-4 System with Flush Mounting Evacuation Intercom(Car Speaker without Faceplate)

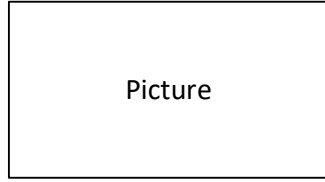

2WAD EN-4 System plus Pictograms with Flush Mounting Evacuation Intercom

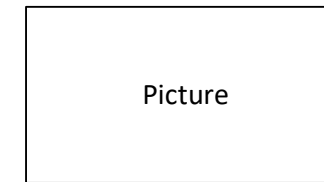

2WAD EN-4 System plus Pictograms with Flush Mounting Evacuation Intercom (Car Speaker without faceplate)

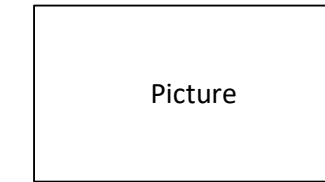

2WAD EN-4 System plus Inductive Loop with Flush Mounting Evacuation Intercom

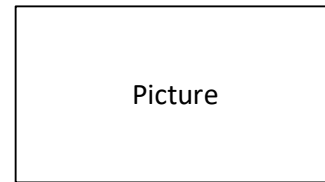

2WAD EN-4 System plus Inductive Loop with Flush Mounting Evacuation Intercom (Car Speaker without faceplate)

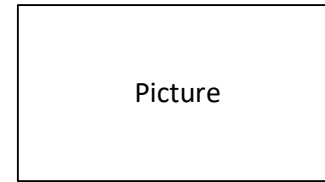

2WAD EN-4 System with Pictograms & Inductive loop plus Flush Mounting Evacuation Intercom

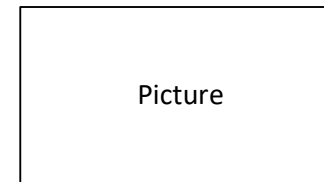

2WAD EN-4 System with Pictograms & Inductive Loop plus Flush Mounting Evacuation Intercom(Car Speaker without faceplate)

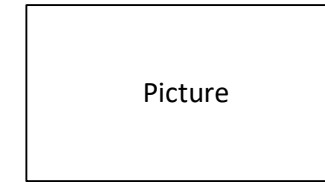

2WAD EN-3 System with Flush Mounting Evacuation Intercom

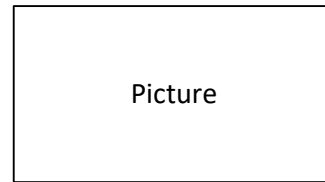

2WAD EN-3 System with Flush Mounting Evacuation Intercom(Car Speaker without Faceplate)

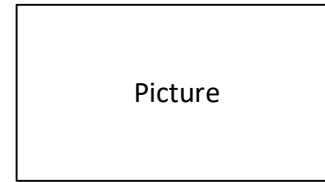

2WAD EN-3 System plus Pictograms with Flush Mounting Evacuation Intercom

2WAD EN-3 System plus Pictograms with Flush Mounting Evacuation Intercom (Car Speaker without faceplate)

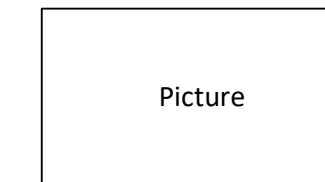

2WAD EN-3 System plus Inductive Loop with Flush Mounting Evacuation Intercom

2WAD EN-3 System plus Inductive Loop with Flush Mounting Evacuation Intercom (Car Speaker without faceplate)

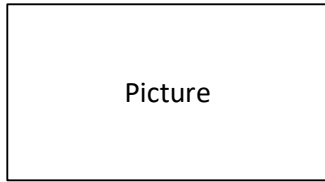

2WAD EN-3 System with Pictograms & Inductive loop plus Flush Mounting Evacuation Intercom

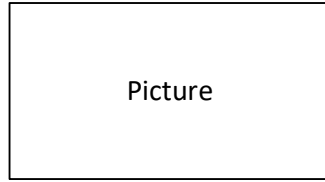

2WAD EN-3 System with Pictograms & Inductive Loop plus Flush Mounting Evacuation Intercom(Car Speaker without faceplate)

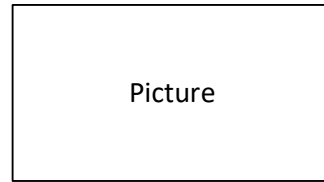

**Standard 2 Wire Autodiallers with Surface Mounting Evacuation Intercom**

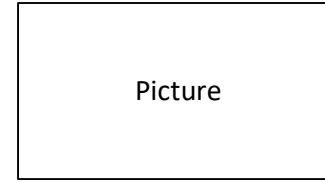

2WAD EN-4 System with Surface Mounting Evacuation Intercom

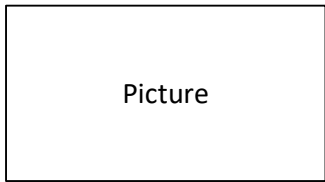

2WAD EN-4 System with Surface Mounting Evacuation Intercom (Car Speaker without Faceplate)

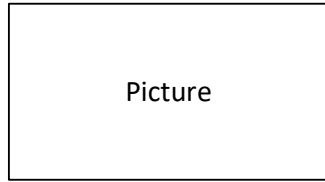

2WAD EN-4 System plus Pictograms with Surface Mounting Evacuation Intercom

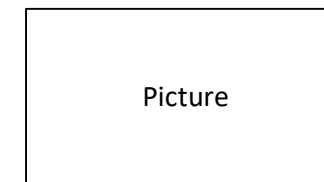

2WAD EN-4 System plus Pictograms with Surface Mounting Evacuation Intercom (Car Speaker without faceplate)

2WAD EN-4 System plus Inductive Loop with Surface Mounting Evacuation Intercom

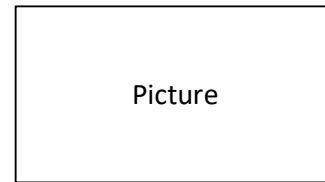

2WAD EN-4 System plus Inductive Loop with Surface Mounting Evacuation Intercom (Car Speaker without faceplate)

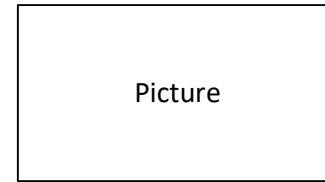

2WAD EN-4 System with Pictograms & Inductive loop plus Surface Mounting Evacuation Intercom

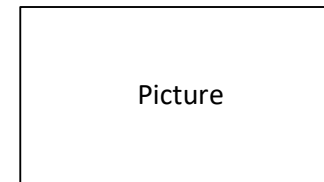

2WAD EN-4 System with Pictograms & Inductive Loop plus Surface Mounting Evacuation Intercom (Car Speaker without faceplate)

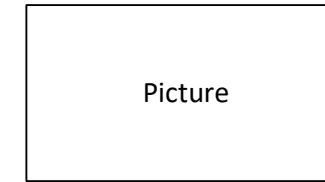

2WAD EN-3 System with Surface Mounting Evacuation Intercom

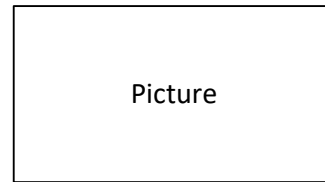

2WAD EN-3 System with Surface Mounting Evacuation Intercom (Car Speaker without Faceplate)

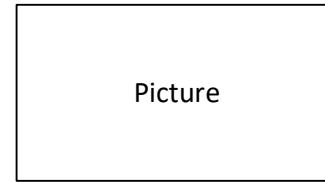

2WAD EN-3 System plus Pictograms with Surface Mounting Evacuation Intercom

2WAD EN-3 System plus Pictograms with Surface Mounting Evacuation Intercom (Car Speaker without faceplate)

2WAD EN-3 System plus Inductive Loop with Surface Mounting Evacuation Intercom

2WAD EN-3 System plus Inductive Loop with Surface Mounting Evacuation Intercom (Car Speaker without faceplate)

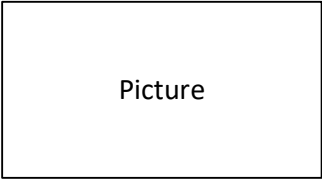

2WAD EN-3 System with Pictograms & Inductive loop plus Surface Mounting Evacuation Intercom

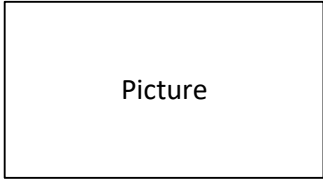

2WAD EN-3 System with Pictograms & Inductive Loop plus Surface Mounting Evacuation Intercom (Car Speaker without faceplate)

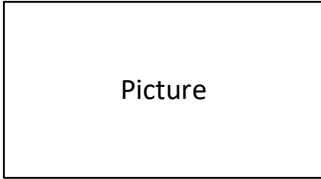

**Standard 2 Wire Autodiallers with Evacuation & Fire Fighting Add-on**

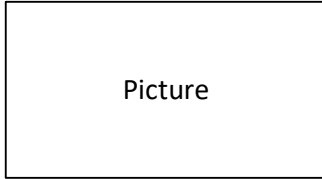

2 Wire Autodiallers with  
Flush Mounting Evacuation  
& Fire Fighting including  
Primary/Secondary  
Indicators  
(Go to Page 14)

2 Wire Autodiallers with  
Flush Mounting  
Evacuation & Fire  
Fighting without  
Primary/Secondary  
Indicators  
(Go to Page 15)

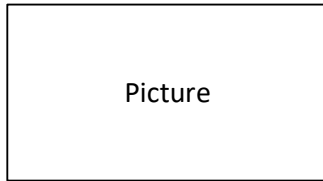

2 Wire Autodiallers with  
Surface Mounting  
Evacuation & Fire Fighting  
including Primary/  
Secondary Indicators  
(Go to Page 16)

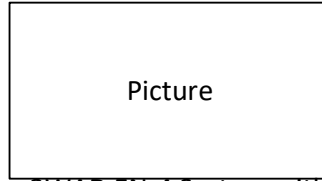

2 Wire Autodiallers with  
Surface Mounting  
Evacuation & Fire Fighting  
without Primary/Secondary  
Indicators  
(Go to Page 17)

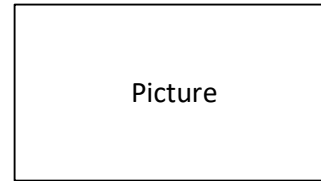

**Standard 2 Wire Autodiallers with Flush Mounting  
Evacuation & Fire Fighting including Primary/  
Secondary Indicators**

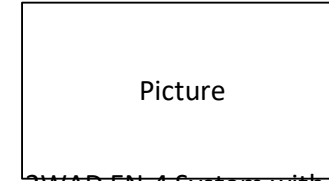

2WAD EN-4 System with  
Flush Mounting Evacuation &  
Fire Fighting including  
Primary/Secondary Indicators

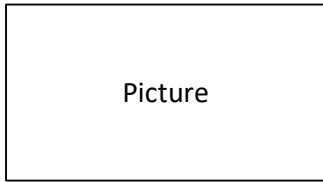

2WAD EN-4 System with  
Flush Mounting Evacuation & Fire  
Fighting including Primary/Secondary  
Indicators  
(Car Speaker without Faceplate)

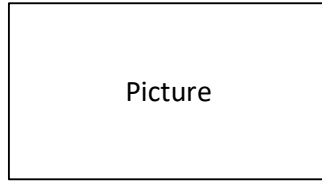

2WAD EN-4 System with  
Pictograms & with Flush  
Mounting Evacuation & Fire  
Fighting including Primary/  
Secondary Indicators

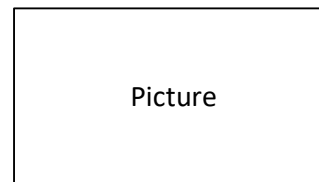

2WAD EN-4 System with  
Pictograms & with Flush Mounting  
Evacuation & Fire Fighting  
including Primary/Secondary  
Indicators  
(Car Speaker without faceplate)

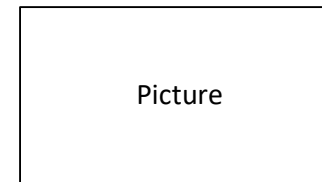

2WAD EN-4 System with  
Inductive Loop & with  
Flush Mounting  
Evacuation & Fire  
Fighting including  
Primary/Secondary  
Indicators

2WAD EN-4 System with Inductive  
Loop & with Flush Mounting  
Evacuation & Fire Fighting  
including Primary/Secondary  
Indicators  
(Car Speaker without faceplate)

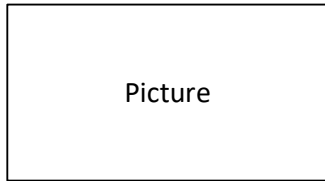

2WAD EN-4 System with  
Pictograms & Inductive loop plus  
with Flush Mounting Evacuation &  
Fire Fighting including Primary/  
Secondary Indicators

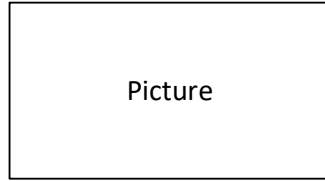

2WAD EN-4 System with  
Pictograms & Inductive Loop plus  
with Flush Mounting Evacuation &  
Fire Fighting including Primary/  
Secondary Indicators  
(Car Speaker without faceplate)

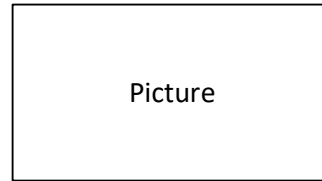

**Standard 2 Wire Autodiallers with Flush Mounting  
Evacuation & Fire Fighting without Primary/Secondary  
Indicators**

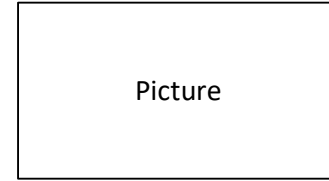

2WAD EN-4 System with  
Flush Mounting Evacuation &  
Fire Fighting without  
Primary/Secondary Indicators

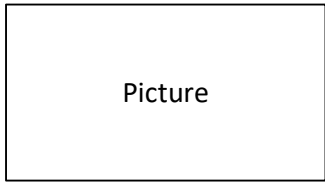

2WAD EN-4 System with  
Flush Mounting Evacuation & Fire  
Fighting without Primary/Secondary  
Indicators  
(Car Speaker without Faceplate)

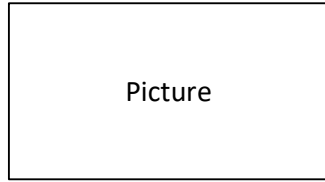

2WAD EN-4 System with  
Pictograms & with Flush  
Mounting Evacuation & Fire  
Fighting without Primary/  
Secondary Indicators

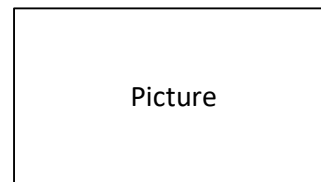

2WAD EN-4 System with  
Pictograms & with Flush Mounting  
Evacuation & Fire Fighting without  
Primary/Secondary Indicators  
(Car Speaker without faceplate)

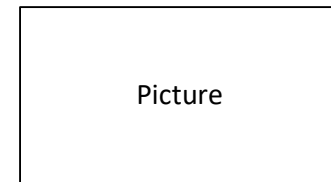

2WAD EN-4 System with  
Inductive Loop & with  
Flush Mounting Evacuation  
& Fire Fighting without  
Primary/Secondary  
Indicators

2WAD EN-4 System with Inductive  
Loop & with Flush Mounting  
Evacuation & Fire Fighting without  
Primary/Secondary Indicators  
(Car Speaker without faceplate)

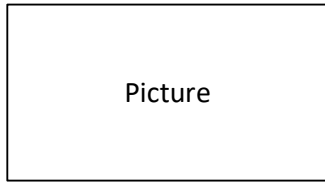

2WAD EN-4 System with  
Pictograms & Inductive loop plus  
with Flush Mounting Evacuation &  
Fire Fighting without Primary/  
Secondary Indicators

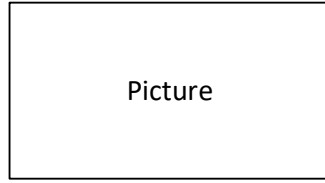

2WAD EN-4 System with  
Pictograms & Inductive Loop plus  
with Flush Mounting Evacuation &  
Fire Fighting without Primary/  
Secondary Indicators  
(Car Speaker without faceplate)

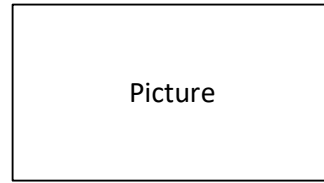

**Standard 2 Wire Autodiallers with Surface Mounting  
Evacuation & Fire Fighting including Primary/  
Secondary Indicators**

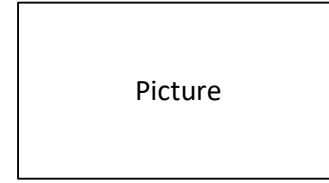

2WAD EN-4 System with Surface Mounting Evacuation & Fire Fighting including Primary/Secondary Indicators

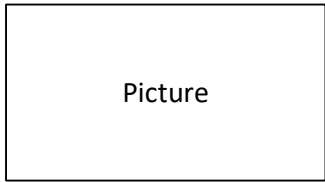

2WAD EN-4 System with Surface Mounting Evacuation & Fire Fighting including Primary/Secondary Indicators (Car Speaker without Faceplate)

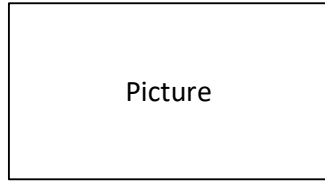

2WAD EN-4 System with Pictograms & with Surface Mounting Evacuation & Fire Fighting including Primary/Secondary Indicators

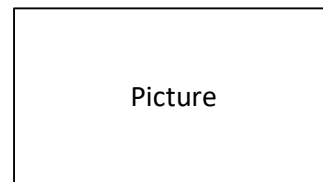

2WAD EN-4 System with Pictograms & with Surface Mounting Evacuation & Fire Fighting including Primary/Secondary Indicators (Car Speaker without faceplate)

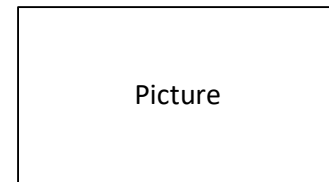

2WAD EN-4 System with Inductive Loop & with Surface Mounting Evacuation & Fire Fighting including Primary/Secondary Indicators

2WAD EN-4 System with Inductive Loop & with Surface Mounting Evacuation & Fire Fighting including Primary/Secondary Indicators (Car Speaker without faceplate)

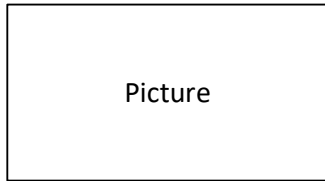

2WAD EN-4 System with Pictograms & Inductive loop plus with Surface Mounting Evacuation & Fire Fighting including Primary/Secondary Indicators

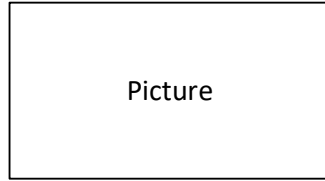

2WAD EN-4 System with Pictograms & Inductive Loop plus with Surface Mounting Evacuation & Fire Fighting including Primary/Secondary Indicators (Car Speaker without faceplate)

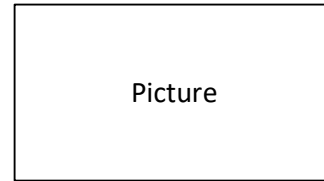

**Standard 2 Wire Autodiallers with Surface Mounting  
Evacuation & Fire Fighting including Primary/  
Secondary Indicators**

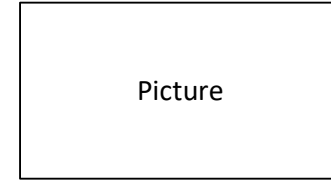

2WAD EN-4 System with  
Surface Mounting Evacuation  
& Fire Fighting including  
Primary/Secondary Indicators

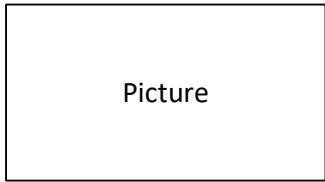

2WAD EN-4 System with  
Surface Mounting Evacuation & Fire  
Fighting including Primary/Secondary  
Indicators  
(Car Speaker without Faceplate)

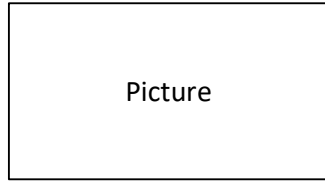

2WAD EN-4 System with  
Pictograms & with Surface  
Mounting Evacuation & Fire  
Fighting including Primary/  
Secondary Indicators

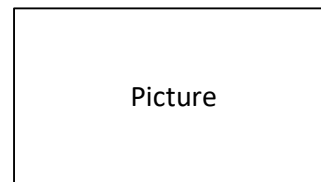

2WAD EN-4 System with  
Pictograms & with Surface  
Mounting Evacuation & Fire  
Fighting including Primary/  
Secondary Indicators  
(Car Speaker without faceplate)

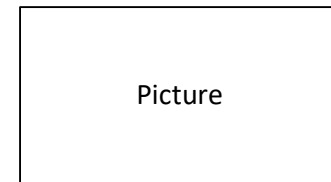

2WAD EN-4 System with  
Inductive Loop & with  
Surface Mounting  
Evacuation & Fire  
Fighting including  
Primary/Secondary  
Indicators

2WAD EN-4 System with Inductive  
Loop & with Surface Mounting  
Evacuation & Fire Fighting  
including Primary/Secondary  
Indicators  
(Car Speaker without faceplate)

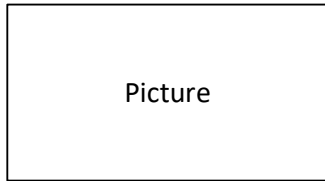

2WAD EN-4 System with  
Pictograms & Inductive loop plus  
with Surface Mounting Evacuation  
& Fire Fighting including Primary/  
Secondary Indicators

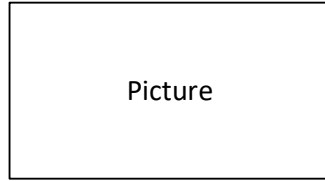

2WAD EN-4 System with  
Pictograms & Inductive Loop plus  
with Surface Mounting Evacuation  
& Fire Fighting including Primary/  
Secondary Indicators  
(Car Speaker without faceplate)

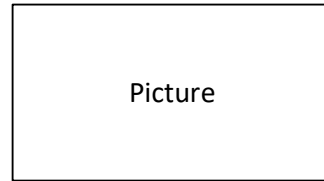

**Spares/Replacement**

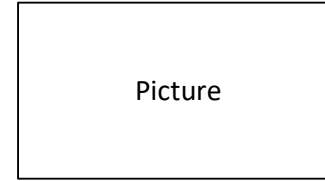

Spare/Replacements for Standard  
2 Wire Autodialler Only  
(Go to Page 19)

Spare/Replacements for  
Standard 2 Wire Autodialler  
with Fire Fighting Add-on  
(Go to Page 24)

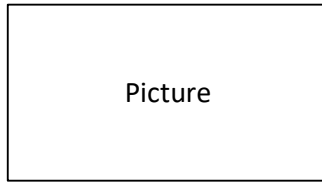

Spare/Replacements for  
Standard 2 Wire Autodialler  
with Evacuation Add-on  
(Page 27)

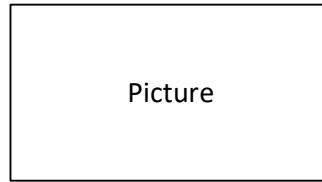

Spare/Replacements for Standard  
2 Wire Autodialler with  
Evacuation & Fire Fighting Add-on  
(Page 32)

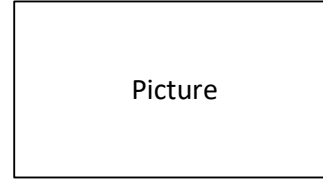

**Spare/Replacements for Standard 2 Wire Autodialler Only**

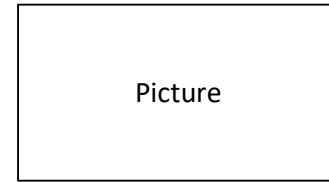

Main Units/Parts  
(Go to Page 20)

Speakers  
(Go to Page 21)

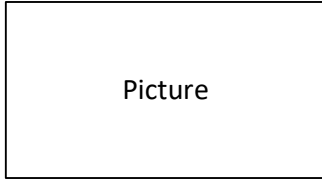

PSU & Batteries  
(Go to Page 22)

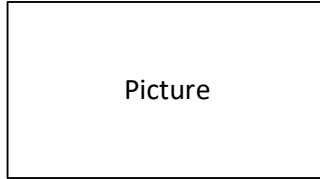

Plugs & Cables  
(Go to Page 23)

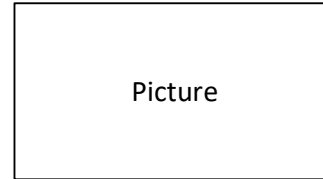

**Spare/Replacements for Standard 2 Wire Autodialler Main Units**

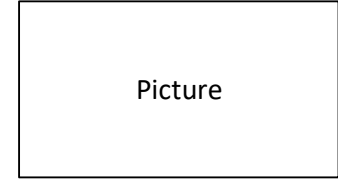

2 Wire EN-4 Main  
Unit

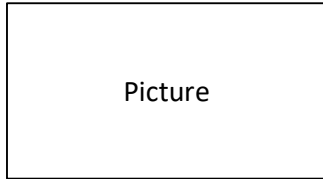

2 Wire EN-3 Main  
Unit

Inductive Loop Main  
unit for 2 Wire System

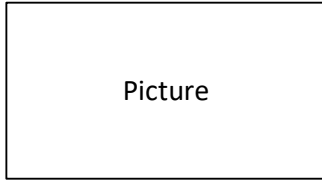

2 Wire Main Board

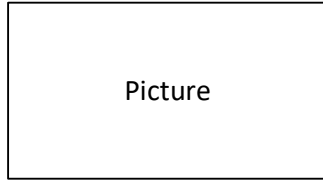

Inductive Loop Board  
for 2 Wire System

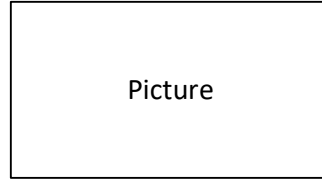

**Spare/Replacements for Standard 2 Wire Autodialler Speakers**

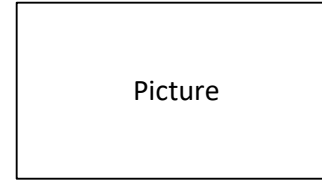

2 Wire Lift Car  
Speaker Box with  
faceplate

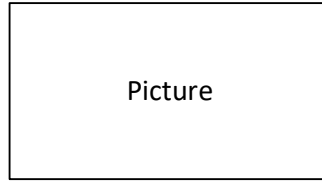

2 Wire Lift Car  
Speaker Box  
without faceplate

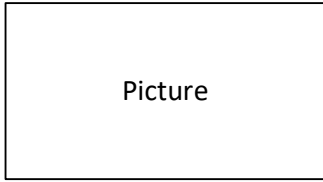

2 Wire Lift Car Speaker  
Box with Pictograms &  
faceplate

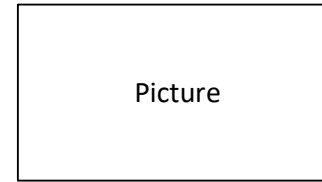

2 Wire Lift Car Speaker  
Box with Pictograms  
without faceplate

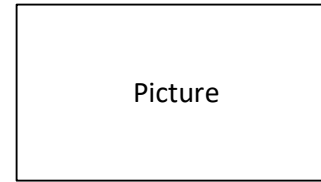

Pictograms & Spacers  
for Lift Car (without  
inductive loop symbol)

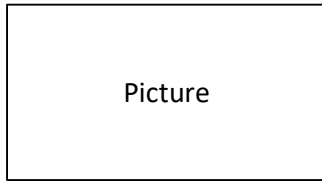

Pictograms & Spacers  
for Lift Car (with  
inductive loop symbol)

2 Wire Top of Car  
Speaker Box

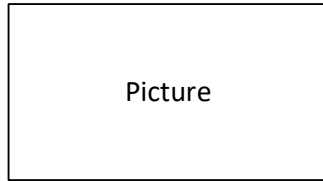

2 Wire Lift Pit  
Speaker Box

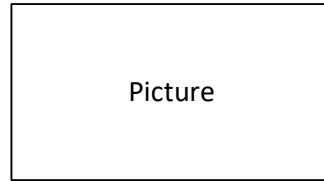

2 Wire Motor Room/  
MRL Speaker Box

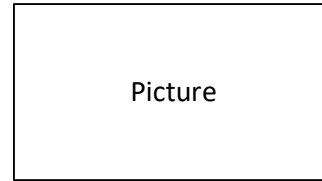

**PSU & Batteries**

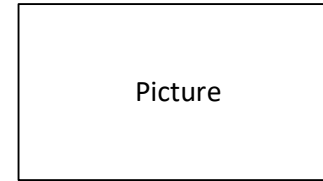

2 Wire PSU unit

2 Wire PSU Battery  
Pack

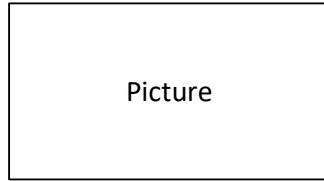

2 Wire PSU Board

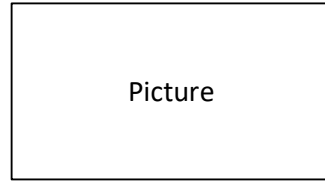

Battery Pack for 2 Wire  
Inductive Loop

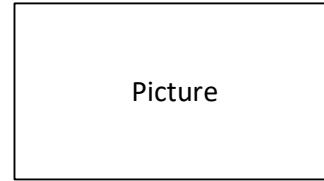

**Plugs & Cables**

2 Way Plug

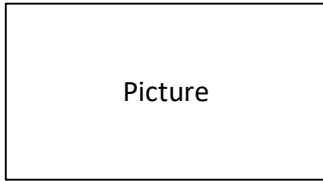

RJ45 Cable for Lift Car

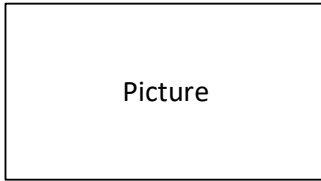

LSF Cable for  
Interconnections

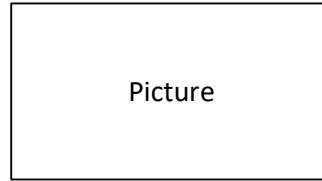

**Spares/Replacement for 2 Wire System with Fire Fighting Add-On**

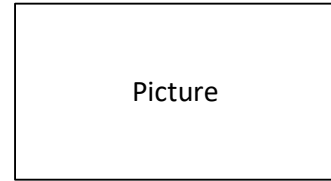

Main Units/Parts  
(Go to Page 25)

Speakers  
(Go to Page 26)

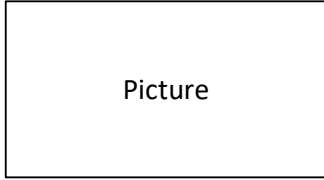

PSU & Batteries  
(Go to Page 22)

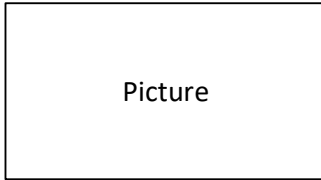

Plugs & Cables  
(Go to Page 23)

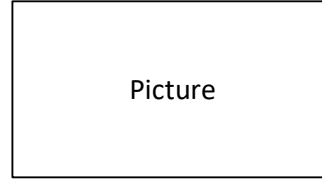

**Spares/Replacement for 2 Wire System with Fire Fighting Add-On – Main Units**

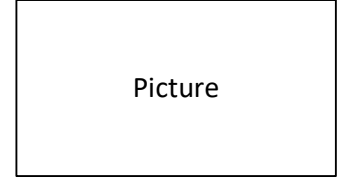

2 Wire EN-4 Main Unit

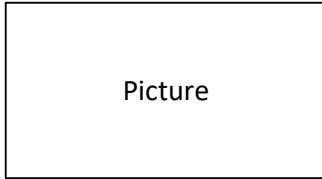

Inductive Loop Main unit for 2 Wire System

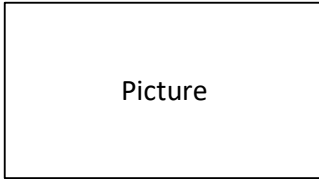

2 Wire Main Board

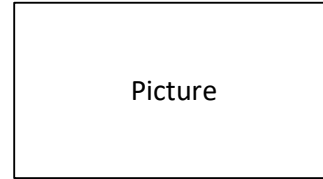

Inductive Loop Board for 2 Wire System

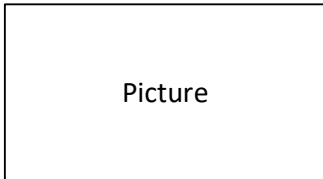

Flush Mounting Fire Fighting Panel Only for 2 Wire with Primary/Secondary LED

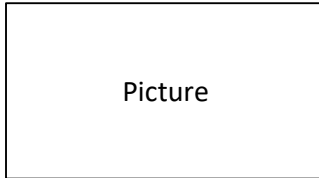

Flush Mounting Fire Fighting Panel Only for 2 Wire without Primary/Secondary LED

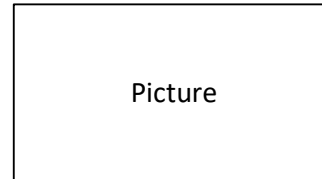

Surface Mounting Fire Fighting Panel Only for 2 Wire with Primary/Secondary LED

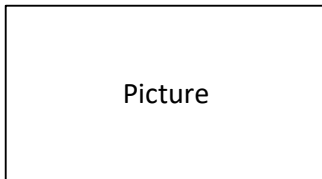

Surface Mounting Fire Fighting Panel Only for 2 Wire without Primary/Secondary LED

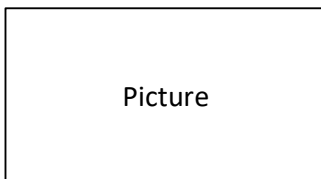

Fire Fighting Panel Speaker Box only

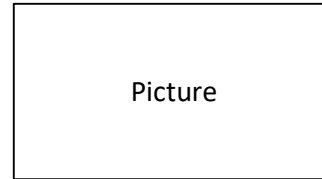

Fire Fighting Panel Microphone only

Fire Fighting Panel Primary Supply LED Indicator (Green)

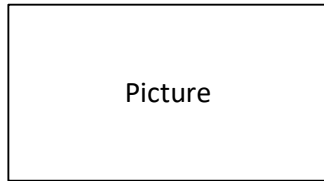

Fire Fighting Panel Secondary Supply LED Indicator (Red)

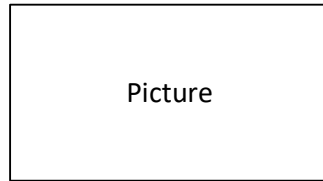

Fire Fighting Panel Euro Lock Switch Assembly

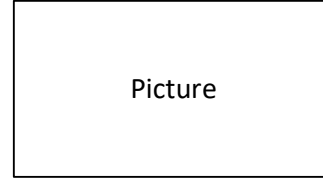

**Spare/Replacements for Standard 2 Wire Autodialler with Fire Fighting Speakers**

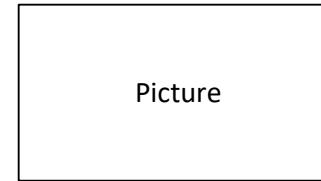

2 Wire Lift Car  
Speaker Box with  
faceplate

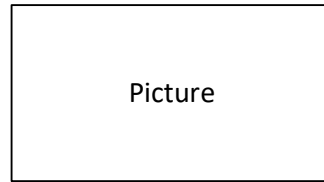

2 Wire Lift Car  
Speaker Box  
without faceplate

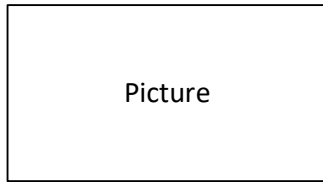

2 Wire Lift Car Speaker  
Box with Pictograms &  
faceplate

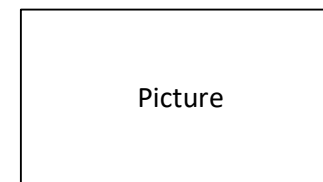

2 Wire Lift Car Speaker  
Box with Pictograms  
without faceplate

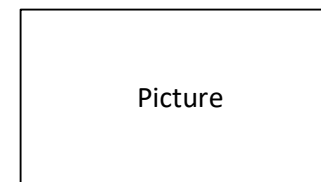

Pictograms & Spacers  
for Lift Car (without  
inductive loop symbol)

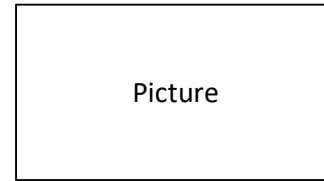

Pictograms & Spacers  
for Lift Car (with  
inductive loop symbol)

2 Wire Top of Car  
Speaker Box

2 Wire Lift Pit  
Speaker Box

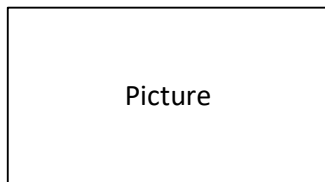

2 Wire Motor Room/  
MRL Speaker Box for  
Fire Fighting

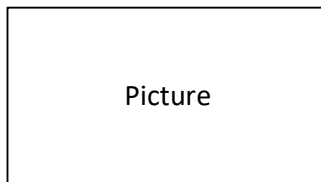

Fire Fighting Panel  
Speaker Box only

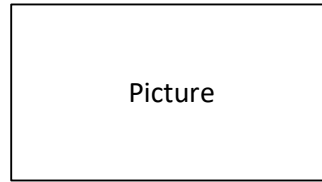

**Spares/Replacement for 2 Wire System with Evacuation Intercom**  
**Add-On**

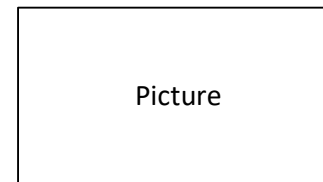

Main Units/Parts  
(Go to Page 28)

Speakers  
(Go to Page 29)

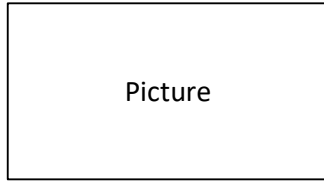

PSU & Batteries  
(Go to Page 30)

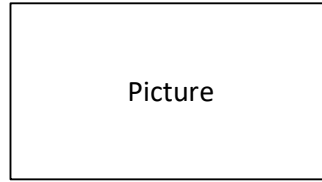

Plugs & Cables  
(Go to Page 31)

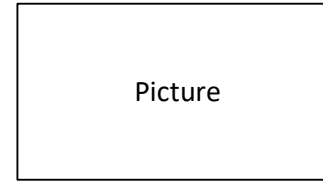

**Spares/Replacement for 2 Wire System with Evacuation Add-On – Main Units**

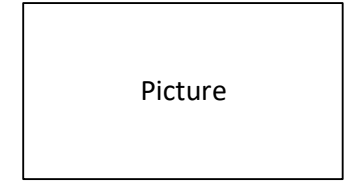

2 Wire EN-4 Main Unit

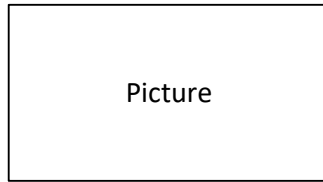

2 Wire EN-3 Main Unit

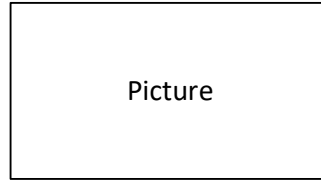

Inductive Loop Main unit for 2 Wire System

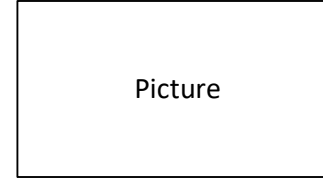

2 Wire Main Board

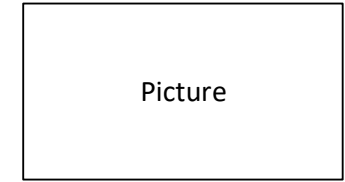

Evacuation Intercom PSU

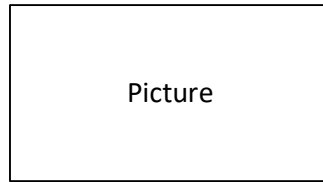

Replacement Flush Mounting Evacuation Panel

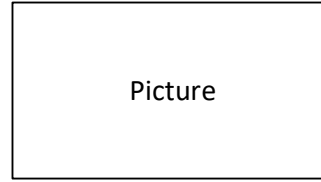

Replacement Surface Mounting Evacuation Panel

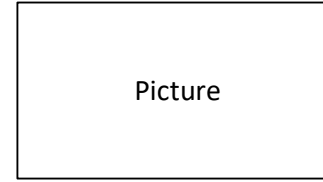

Surface Mounting Evacuation Panel Speaker Box only

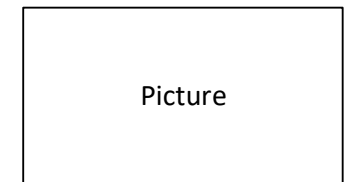

Evacuation Panel Euro Lock Switch Assembly

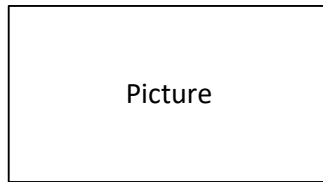

Evacuation Power Booster

Evacuation Power Supply Board

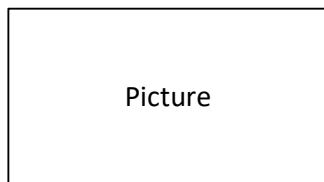

Evacuation Power Booster Board

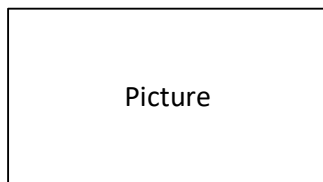

Inductive Loop Board for 2 Wire System

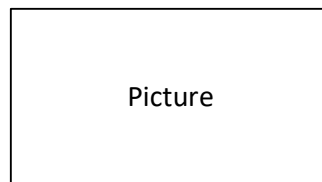

**Spare/Replacements for Standard 2 Wire Autodialler with Evacuation Speakers**

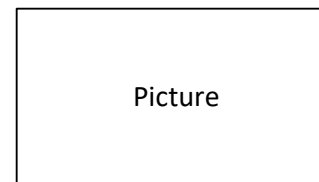

2 Wire Evacuation Lift Car Speaker Box with faceplate

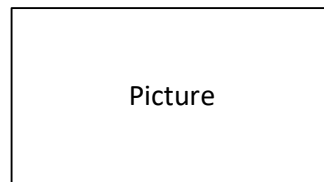

2 Wire Evacuation Lift Car Speaker Box without faceplate

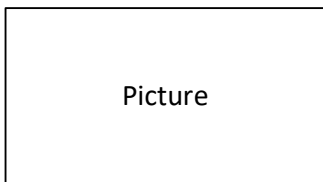

2 Wire Evacuation Lift Car Speaker Box with Pictograms & faceplate

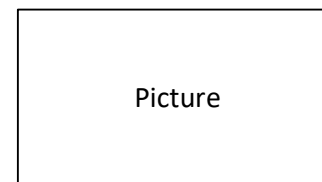

2 Wire Evacuation Lift Car Speaker Box with Pictograms without faceplate

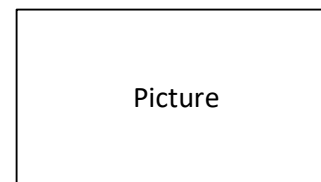

Pictograms & Spacers for Lift Car (without inductive loop symbol)

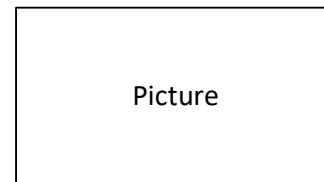

Pictograms & Spacers for Lift Car (with inductive loop symbol)

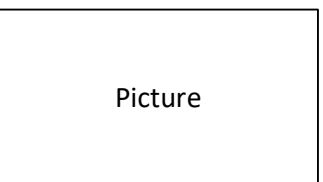

2 Wire Top of Car Speaker Box

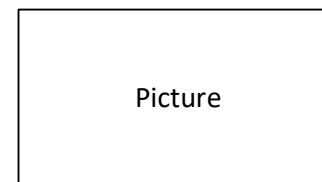

2 Wire Lift Pit Speaker Box

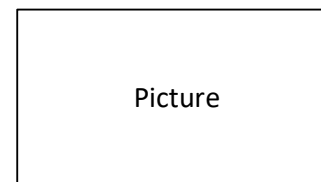

2 Wire Motor Room/MRL Speaker Box

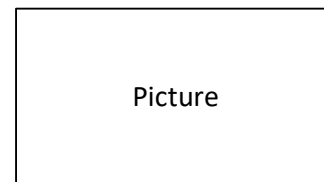

Evacuation Main Panel Speaker Box only

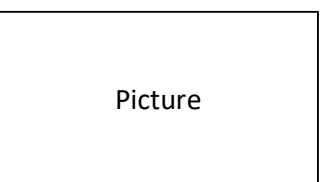

Surface Mounting Evacuation Landing Speaker Box

Flush Mounting Evacuation Landing Speaker Box

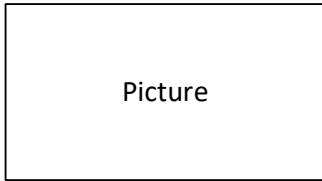

Evacuation Landing Speaker Box No Faceplate

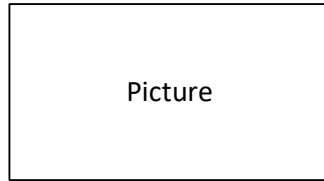

2 Wire Evacuation Lift Car Interface unit (On top of Car)

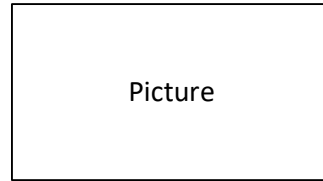

**PSU & Batteries for 2 Wire & Evacuation System**

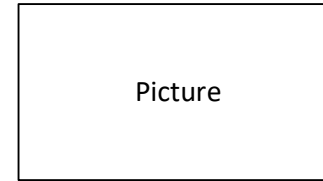

2 Wire PSU unit

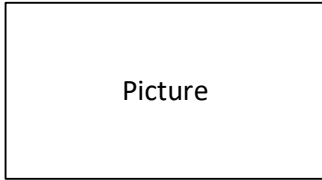

2 Wire PSU Battery Pack

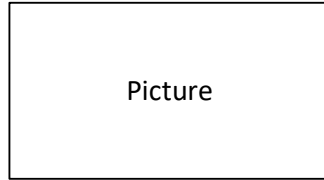

2 Wire PSU Board

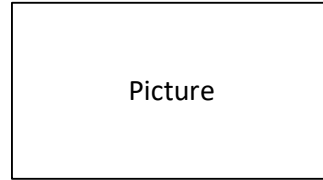

Battery Pack for 2 Wire Inductive Loop

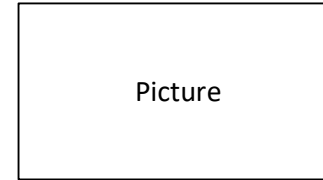

2 Evacuation PSU unit

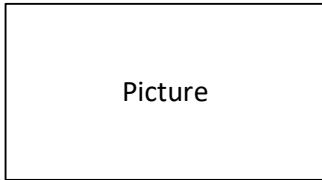

Evacuation Battery Pack

Evacuation PSU Board

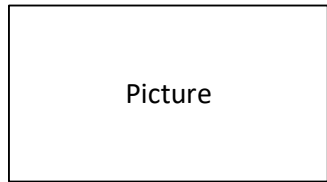

Evacuation Power Booster

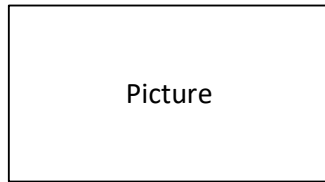

Evacuation Power Booster Board

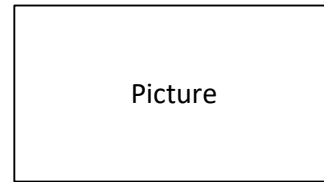

**Plugs & Cables for 2 Wire System with Evacuation Intercom**

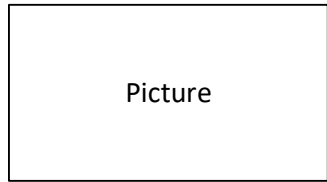

2 Way Plug

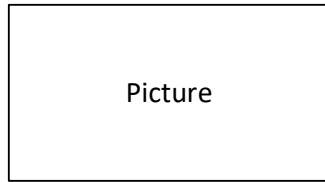

3M RJ45 Cable for Lift Car

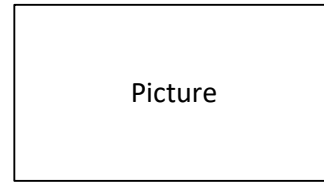

LSF Cable for Interconnections

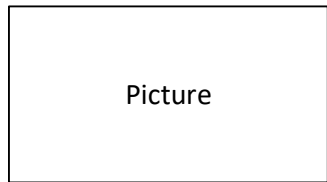

6M RJ45 Cable

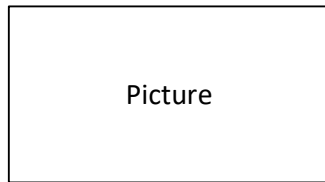

8M RJ45 Cable

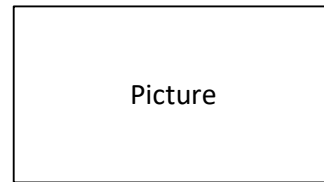

10M RJ45 Cable

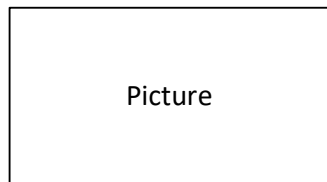

RJ45 Cable Coupler

Custom Length RJ45 Cable

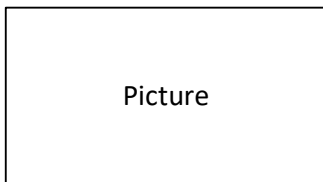

RJ45 Bus Terminator

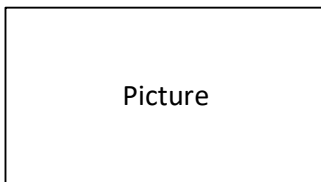

RJ45 to Terminal Disk & Patch Cable

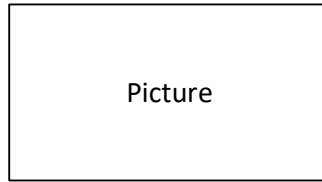

**Spares/Replacement for 2 Wire System with Evacuation Intercom  
& Fire Fighting Add-On**

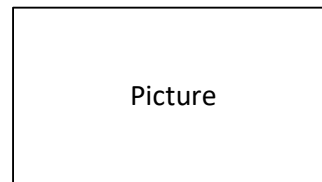

Main Units/Parts  
(Go to Page 33)

Speakers  
(Go to Page 34)

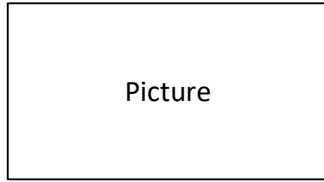

PSU & Batteries  
(Go to Page 30)

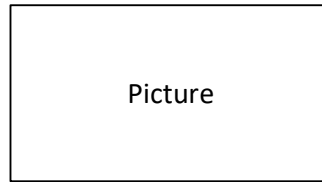

Plugs & Cables  
(Go to Page 31)

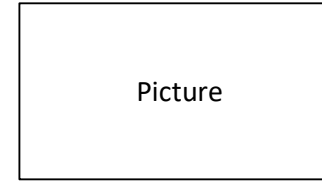

**Spares/Replacement for 2 Wire System with Evacuation Intercom & Fire Fighting Add-On Main Unit Only**

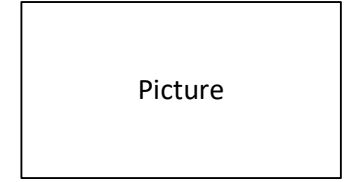

2 Wire EN-4 Main Unit

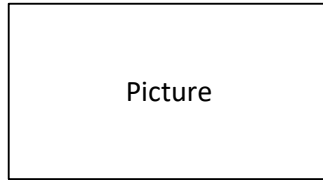

Inductive Loop Main unit for 2 Wire System

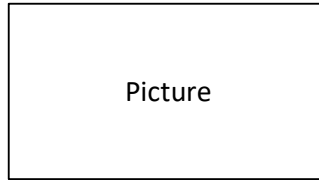

2 Wire Main Board

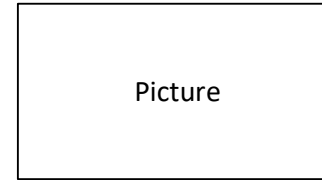

Inductive Loop Board for 2 Wire System

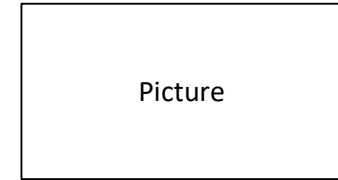

Flush Mounting Evacuation & Fire Fighting Panel Only for 2 Wire with Primary/Secondary LED

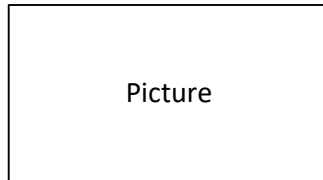

Flush Mounting Evacuation & Fire Fighting Panel Only for 2 Wire without Primary/Secondary LED

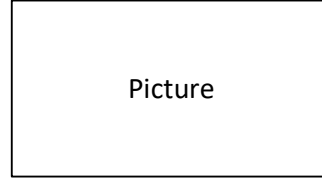

Surface Mounting Evacuation & Fire Fighting Panel Only for 2 Wire with Primary/Secondary LED

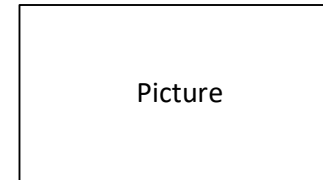

Surface Mounting Evacuation & Fire Fighting Panel Only for 2 Wire without Primary/Secondary LED

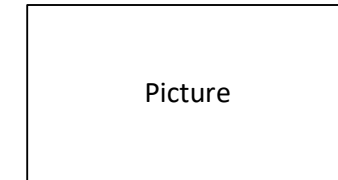

Evacuation & Fire Fighting Speaker Box only

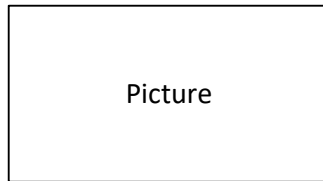

Evacuation Expansion Board

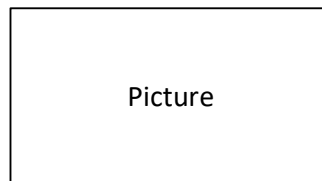

Fire Fighting Panel Euro Lock Switch Assembly

Evacuation Panel Euro Lock Switch Assembly

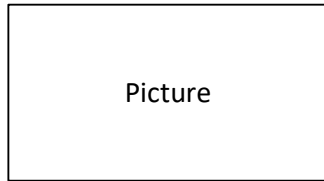

Fire Fighting Panel Primary Supply LED Indicator (Green)

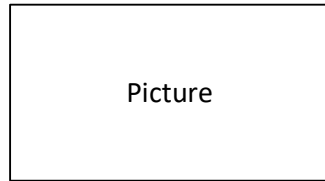

Fire Fighting Panel Secondary Supply LED Indicator (Red)

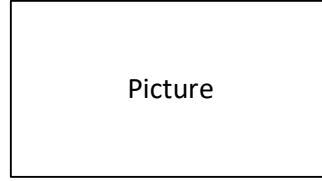

**Spare/Replacements for Standard 2 Wire Autodialler with Evacuation Speakers & Fire Fighting**

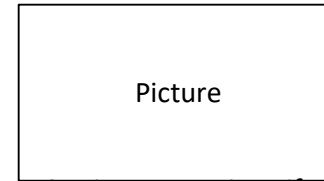

2 Wire Evacuation Lift Car Speaker Box with faceplate

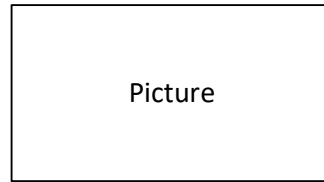

2 Wire Evacuation Lift Car Speaker Box without faceplate

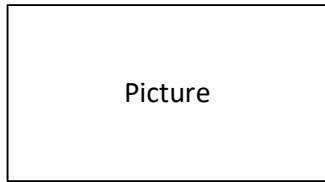

2 Wire Evacuation Lift Car Speaker Box with Pictograms & faceplate

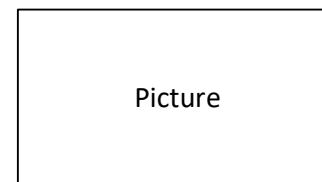

2 Wire Evacuation Lift Car Speaker Box with Pictograms without faceplate

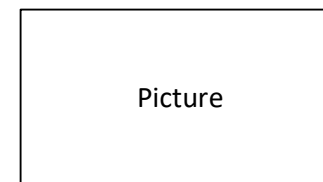

Pictograms & Spacers for Lift Car (without inductive loop symbol)

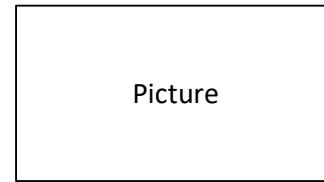

Pictograms & Spacers for Lift Car (with inductive loop symbol)

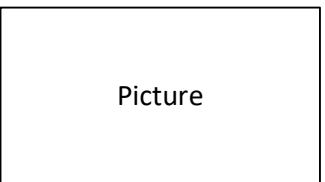

2 Wire Top of Car Speaker Box

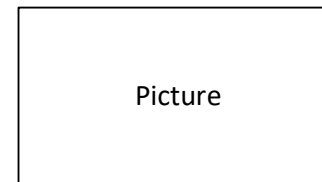

2 Wire Lift Pit Speaker Box

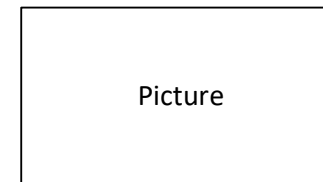

2 Wire Motor Room/MRL Speaker Box for Fire Fighting

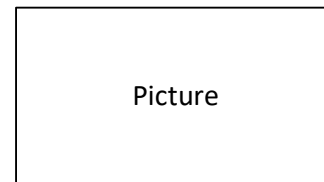

Evacuation & Fire Fighting Main Panel Speaker Box only

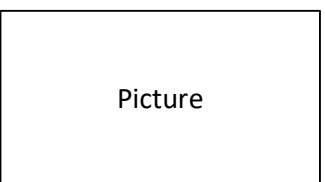

Surface Mounting Evacuation Landing Speaker Box

Flush Mounting Evacuation Landing Speaker Box

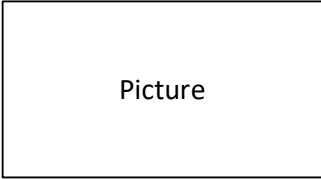

Evacuation Landing Speaker Box No Faceplate

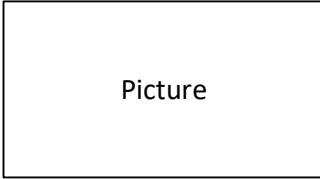

2 Wire Evacuation Lift Car Interface unit (On top of Car)

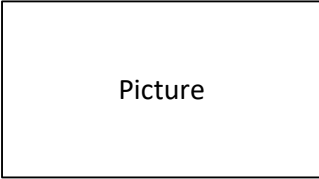

**Accessories for Standard 2 Wire Autodialler System**

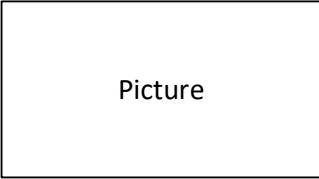

12V NIF10 Relay

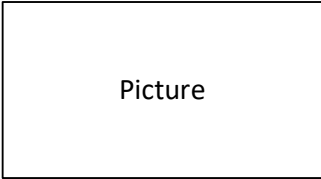

24V NIF10 Relay

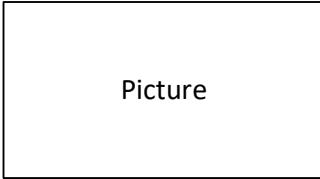

12V Double Relay Board

24V Double Relay Board

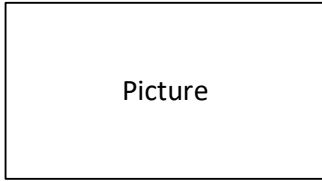

Pictograms & Spacers  
for Lift Car (without  
inductive loop symbol)

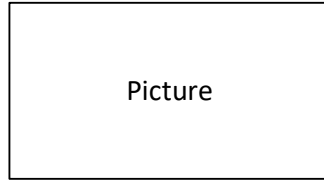

Pictograms & Spacers  
for Lift Car (with  
inductive loop symbol)

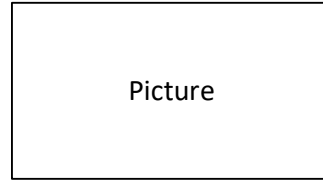

**For Kone Lifts 2 Wire Range & Accessories**

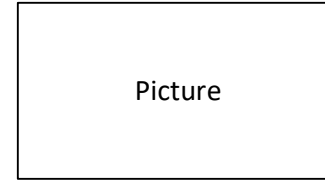

2 Wire Autodiallers Only  
(Go to Page 37)

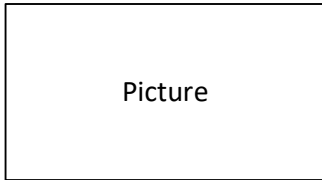

2 Wire Autodiallers with  
Fire Fighting Add-On  
(Go to Page 38)

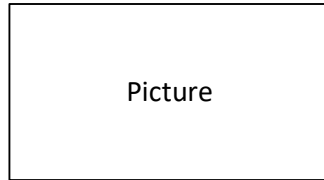

2 Wire Autodiallers with  
Evacuation Add-On  
(Go to Page 43)

2 Wire Autodiallers  
with Evacuation &  
Fire Fighting Add-On  
(Go to Page 46)

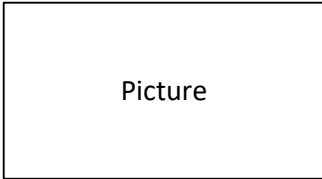

Spares/Replacements  
(Go to Page 51)

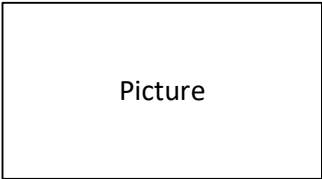

Accessories  
(Go to Page 62)

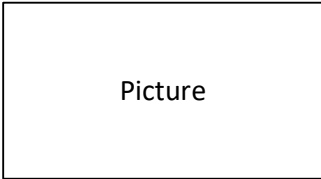

**For Kone Lifts 2 Wire Autodiallers Only**

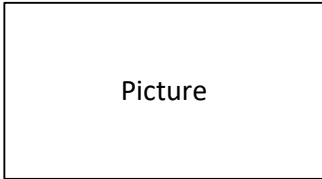

2WAD EN-4 KNE System

2WAD EN-4 KNE System  
with Inductive Loop

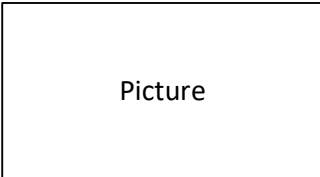

2WAD EN-3 KNE System

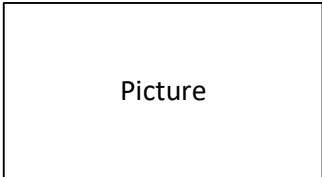

2WAD EN-3 KNE System  
with Inductive Loop

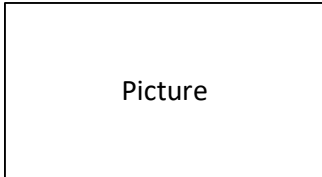

**For Kone Lifts 2 Wire Autodiallers with Fire Fighting Add-on**

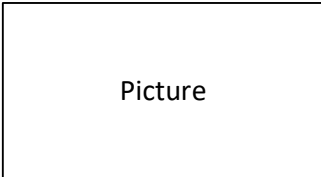

2 Wire KNE Autodiallers  
with Flush Mounting  
Fire Fighting including  
Primary/Secondary  
Indicators  
(Go to Page 39)

2 Wire KNE Autodiallers  
with Flush Mounting  
Fire Fighting without  
Primary/Secondary  
Indicators  
(Go to Page 40)

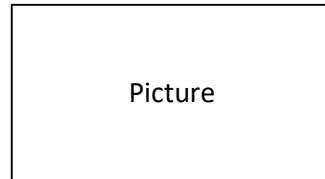

2 Wire KNE Autodiallers  
with Surface Mounting  
Fire Fighting including  
Primary/Secondary  
Indicators  
(Go to Page 41)

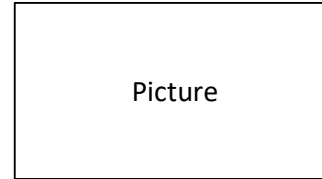

2 Wire KNE Autodiallers  
with Surface Mounting  
Fire Fighting without  
Primary/Secondary  
Indicators  
(Go to Page 42)

**For Kone Lifts 2 Wire Autodiallers with Flush Mounting  
Fire Fighting including Primary/Secondary Indicators**

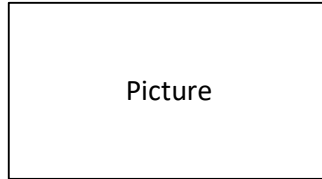

2WAD EN-4 KNE System with  
Flush Mounting Fire Fighting  
including Primary/Secondary  
Indicators

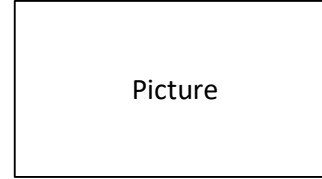

2WAD EN-4 KNE System  
with Inductive Loop &  
with Flush Mounting  
Fire Fighting including  
Primary/Secondary  
Indicators

**For Kone Lifts 2 Wire Autodiallers with Flush Mounting  
Fire Fighting without Primary/Secondary Indicators**

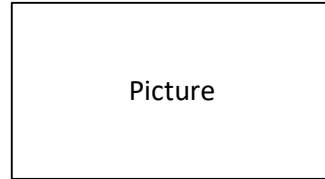

2WAD EN-4 KNE System with  
Flush Mounting Fire Fighting  
without Primary/Secondary  
Indicators

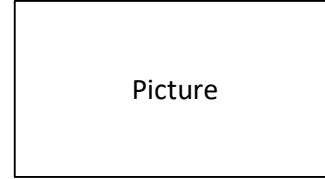

2WAD EN-4 KNE System  
with Inductive Loop &  
with Flush Mounting  
Fire Fighting without  
Primary/Secondary  
Indicators

**For Kone Lifts 2 Wire Autodiallers with Surface  
Mounting Fire Fighting including Primary/Secondary  
Indicators**

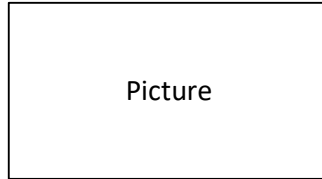

2WAD EN-4 KNE System with  
Surface Mounting Fire  
Fighting including Primary/  
Secondary Indicators

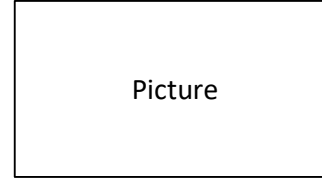

2WAD EN-4 KNE System  
with Inductive Loop &  
with Surface Mounting  
Fire Fighting including  
Primary/Secondary  
Indicators

**For Kone Lifts 2 Wire Autodiallers with Surface  
Mounting Fire Fighting without Primary/Secondary  
Indicators**

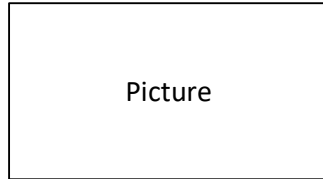

2WAD EN-4 KNE System with  
Surface Mounting Fire  
Fighting without Primary/  
Secondary Indicators

AD1000 EN-1R SCH System with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators

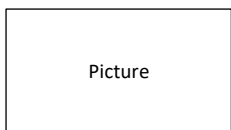

AD1000 EN-1R SCH System with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without Faceplate)

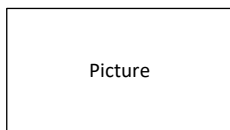

AD1000 EN-1R SCH System+ Pictograms with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators

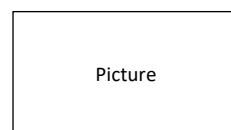

AD1000 EN-1R SCH System+ Pictograms with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

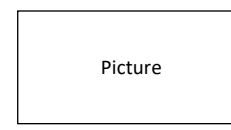

AD1000 EN-1R SCH System with Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators

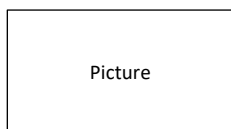

AD1000 EN-1R SCH System with Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

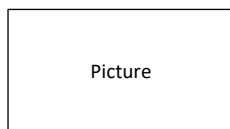

AD1000 EN-1R SCH System with Pictograms & Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators

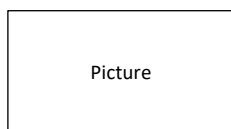

AD1000 EN-1R SCH System with Pictograms & Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

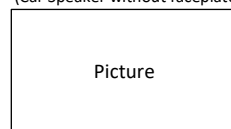

AD1000 EN-3R SCH System with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators

AD1000 EN-3R SCH System with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without Faceplate)

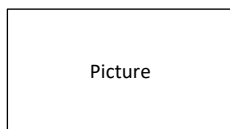

AD1000 EN-3R SCH System with Pictograms & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators

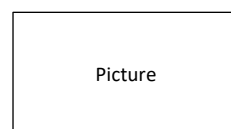

AD1000 EN-3R SCH System with Pictograms & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

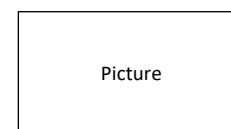

AD1000 EN-3R SCH System with Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators

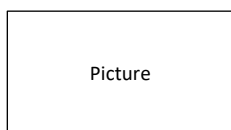

AD1000 EN-3R SCH System with Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

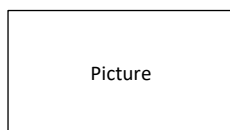

AD1000 EN-3R SCH System with Pictograms & Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators

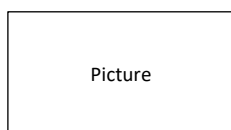

AD1000 EN-3R SCH System with Pictograms & Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

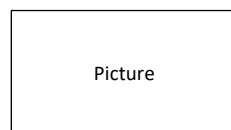

AD1000 EN-4R SCH System with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators

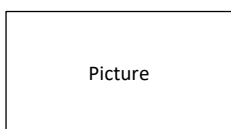

AD1000 EN-4R SCH System with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without Faceplate)

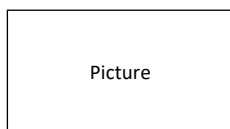

AD1000 EN-4R SCH System with Pictograms & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators

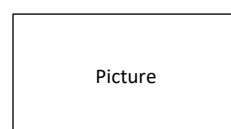

AD1000 EN-4R SCH System with Pictograms & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

AD1000 EN-4R SCH System with Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators

AD1000 EN-4R SCH System with Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

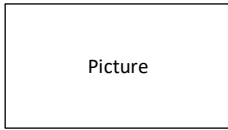

AD1000 EN-4R SCH System with Pictograms & Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators

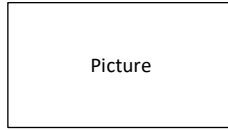

AD1000 EN-4R SCH System with Pictograms & Inductive Loop & with Flush Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

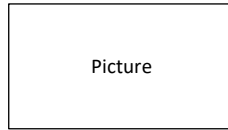

**Schindler AD1000 Autodiallers with Surface Mounting Fire Fighting Add-on including Primary/Secondary LED Indicators With Standard Car Speaker Box**

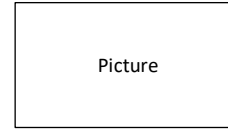

AD1000 EN-1R SCH System with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators

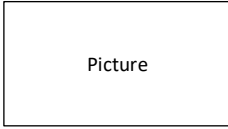

AD1000 EN-1R SCH System with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators (Car Speaker without Faceplate)

AD1000 EN-1R SCH System+ Pictograms with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators

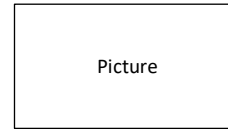

AD1000 EN-1R SCH System+ Pictograms with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators (Car Speaker without faceplate)

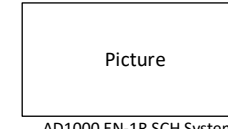

AD1000 EN-1R SCH System with Inductive Loop & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators

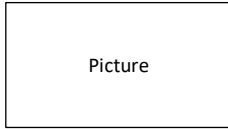

AD1000 EN-1R SCH System with Inductive Loop & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators (Car Speaker without faceplate)

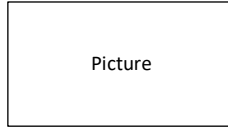

AD1000 EN-1R SCH System with Pictograms & Inductive Loop & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators

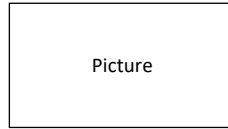

AD1000 EN-1R SCH System with Pictograms & Inductive Loop & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators (Car Speaker without faceplate)

AD1000 EN-3R SCH System with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators

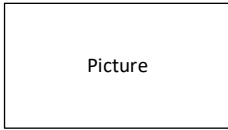

AD1000 EN-3R SCH System with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators (Car Speaker without Faceplate)

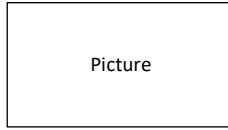

AD1000 EN-3R SCH System with Pictograms & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators

AD1000 EN-3R SCH System with Pictograms & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators (Car Speaker without faceplate)

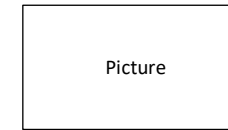

AD1000 EN-3R SCH System with Inductive Loop & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators

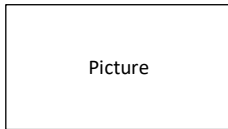

AD1000 EN-3R SCH System with Inductive Loop & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators (Car Speaker without faceplate)

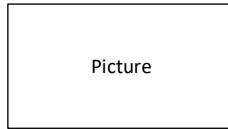

AD1000 EN-3R SCH System with Pictograms & Inductive Loop & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators

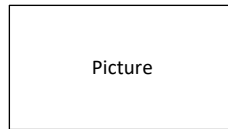

AD1000 EN-3R SCH System with Pictograms & Inductive Loop & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators (Car Speaker without faceplate)

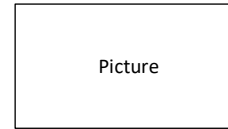

AD1000 EN-4R SCH System with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators

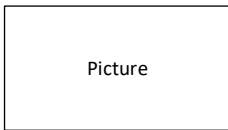

AD1000 EN-4R SCH System with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators (Car Speaker without Faceplate)

AD1000 EN-4R SCH System with Pictograms & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators

AD1000 EN-4R SCH System with Pictograms & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators (Car Speaker without faceplate)

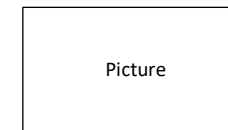

AD1000 EN-4R SCH System with Inductive Loop & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators

AD1000 EN-4R SCH System with Inductive Loop & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators (Car Speaker without faceplate)

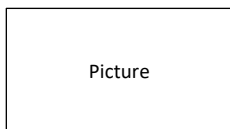

AD1000 EN-4R SCH System with Pictograms & Inductive Loop & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators

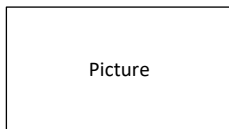

AD1000 EN-4R SCH System with Pictograms & Inductive Loop & with Surface Mounting Fire Fighting Including Primary/Secondary LED Indicators (Car Speaker without faceplate)

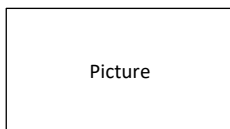

**Schindler AD1000 Autodiallers with Surface Mounting Fire Fighting Add-on without Primary/Secondary LED Indicators**  
**With Standard Car Speaker Box**

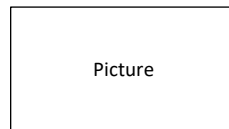

AD1000 EN-1R SCH System with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators

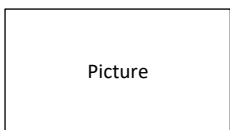

AD1000 EN-1R SCH System with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without Faceplate)

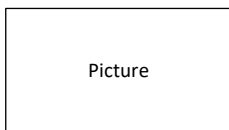

AD1000 EN-1R SCH System+ Pictograms with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators

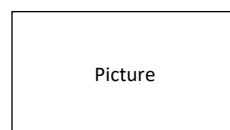

AD1000 EN-1R SCH System+ Pictograms with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

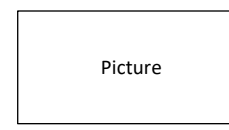

AD1000 EN-1R SCH System with Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators

AD1000 EN-1R SCH System with Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

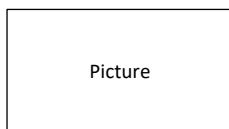

AD1000 EN-1R SCH System with Pictograms & Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators

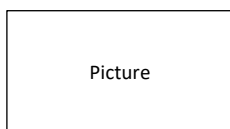

AD1000 EN-1R SCH System with Pictograms & Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

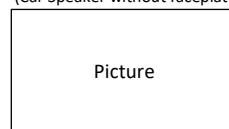

AD1000 EN-3R SCH System with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators

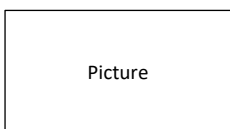

AD1000 EN-3R SCH System with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without Faceplate)

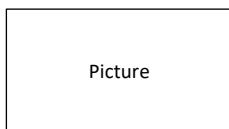

AD1000 EN-3R SCH System with Pictograms & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators

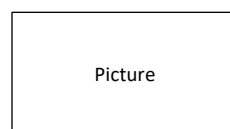

AD1000 EN-3R SCH System with Pictograms & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

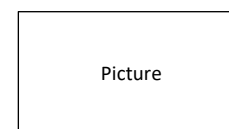

AD1000 EN-3R SCH System with Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators

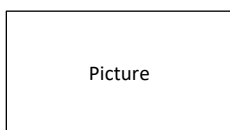

AD1000 EN-3R SCH System with Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

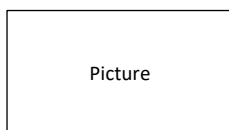

AD1000 EN-3R SCH System with Pictograms & Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators

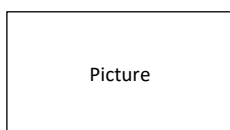

AD1000 EN-3R SCH System with Pictograms & Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

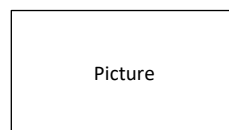

AD1000 EN-4R SCH System with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators

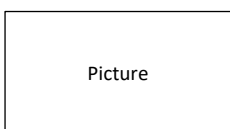

AD1000 EN-4R SCH System with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without Faceplate)

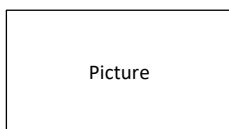

AD1000 EN-4R SCH System with Pictograms & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators

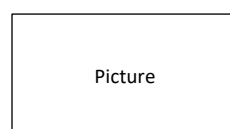

AD1000 EN-4R SCH System with Pictograms & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

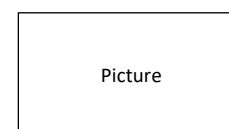

AD1000 EN-4R SCH System with Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators

AD1000 EN-4R SCH System with Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

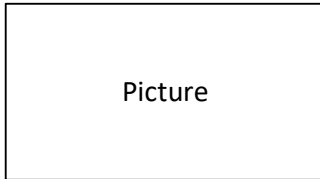

AD1000 EN-4R SCH System with Pictograms & Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators

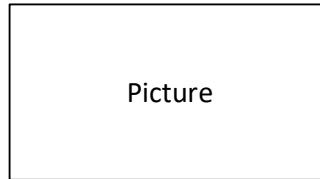

AD1000 EN-4R SCH System with Pictograms & Inductive Loop & with Surface Mounting Fire Fighting without Primary/Secondary LED Indicators (Car Speaker without faceplate)

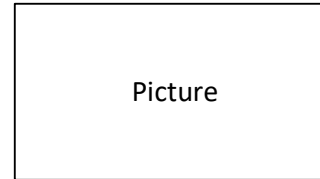

**Schindler Autodiallers with Fire Fighting Add-on**  
**With 20mm Lift Car Speaker Box**

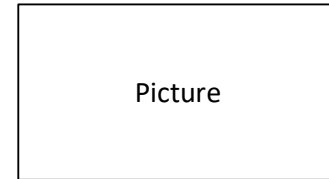

AD1000 Autodiallers  
with Flush Mounting  
Fire Fighting including  
Primary/Secondary  
Indicators  
(Go to Page 223)

AD1000 Autodiallers  
with Flush Mounting  
Fire Fighting without  
Primary/Secondary  
Indicators  
(Go to Page 224)
